Ski Pass guide 2025/26

## Ski Passes

Be the first out on the slopes on Monday morning by pre-ordering your ski passes with us. Not only will you avoid the queues at the lift pass office, but you'll also be able to pre-pay at your convenience, or pay in resort with us; whichever is easiest for you! Let us know your requirements through your online booking area and we'll bring the passes to the chalet for you when you arrive.

Please find information below on what options you have and which pass will work best for you.

### How much is a ski pass?

The cost of the ski pass depends on your age, which ski area you would like the pass to cover, the number of days you would like to ski, and the configuration of your group. Please see the table below for a breakdown of prices.

### Which ski pass do I need for my lessons?

The price difference between a 6 day, 3 Valleys pass and a 6 day Meribel Valley pass is only **€63.00** for an adult.

If you are a confident skier then the Three Valleys pass is the one to go for.

If you are intermediate and happy on greens, blues and a few reds, then we also suggest going for the Three Valley pass.

We'd really only suggest sticking with a Meribel valley pass if you're a first-time skier or have done less than a week. Even then though there are some great, gentle runs into Courchevel and St Martin from the Meribel valley.

### Which ski pass do I need for my lessons?

Usually young children and beginners will only require a Meribel pass rather than the full Three Valleys pass, however you should contact your ski school directly to find out which one you will need.

### Can I change my mind and upgrade from a Meribel Valley pass to a Three Valley pass?

You can upgrade from the Meribel pass to a Three Valleys pass, but only on a day by day basis which costs **€75 per day**.

As the cost difference between a Meribel Valley pass and a 3 Valleys pass is only **€63.00**, people who think they may upgrade are generally better off taking the 3 Valleys pass from the start.

### Does a ski pass have to cover consecutive days?

Yes, at the moment you have to select your start date for your pass and it will run from then, for the number of days you wish to ski.

If you plan on skiing for more than 4 days in total, then it is worth getting the 6-day ski pass.

## Is there a family pass?

Yes, a family pass is available for which everybody is charged the child rate (prices are below). A family consists of a minimum of 3 people including at least one child (max. 2 adults and 6 children aged between 5-17 years).

## I'm not sure how much I want to ski. Can I just buy my pass daily when I decide to ski?

Yes, you can buy your day pass from the bottom of the Golf lift in Meribel Village or the Chaudanne in Meribel Centre. The cost of a day pass is **€81.80** per day.

## Is there a half day pass?

Yes, there is the option of buying a 4-hour pass which you can use for 4 hours during any one day. The cost of a 4-hour pass is **€73**.

## Can pedestrians use the lifts?

Yes, pedestrians can use many of the lifts to access walks and restaurants (prices are below).

## What is Carre Neige insurance and do I need it?

Carre Neige insurance covers your emergency transportation off the mountain should you have an accident and be unable to ski/board down, which some travel insurance policies don't cover.

Full details can be found here: <https://carreneige.com/en/>

Contact your travel insurance provider to find out whether you are already covered. Carre Neige insurance costs **€3.30** per day.
